

Case Study: Unicorn Grocery

Based in Chorlton, Manchester, Unicorn is one of the UK's largest worker-owned groceries.

Whilst much has changed since Unicorn first opened its doors, it remains committed to its original values:

“Secure employment; equal opportunity; wholesome, healthy consumption; fair and sustainable trade; and solidarity in co-operation.”

Unicorn registered as a workers' co-operative in August 1995 and, secured the loan capital needed to open its doors the following year.

Through bulk-purchasing wholefoods, emphasising local and sustainable agriculture, and offering affordable produce, Unicorn fast established itself as a cornerstone of the local community.

“We are proud to be a hub in our community”
